Multi-track editing and audio-led sequencing

EVIDENCE

Selected frame from editing file

A separate uploaded image shows

a DaVinci Resolve timeline.

SHOW IN FINAL VERSION

One full edited sequence

A before/after cut comparison

A brief account of choices

Credit and precise editing responsibilities: confirmation required.

02 NARRATIVE & SEQUENCING

Story structure, pacing, shot selection

SELECTED MOVING-IMAGE MATERIAL

Short sequence in uploaded files

CASE STUDY QUESTIONS

What was the source footage?

Which edits were yours?

What changed between versions?

What emotion or idea was intended?

Do not present third-party footage as an original production.

03 MOTION GRAPHICS

Animation study / After Effects

BEVERAGE ANIMATION STUDY

A pink-background cup animation with changing liquid fill.

Disclosure

Based on a reference / imitation exercise, not original branding.

Specify your own animation work.

Add a short process breakdown and reference attribution.

04 VIRTUAL PRODUCTION

Unreal Engine 5 lighting and camera exploration

ENVIRONMENT WORK

Interior virtual scene

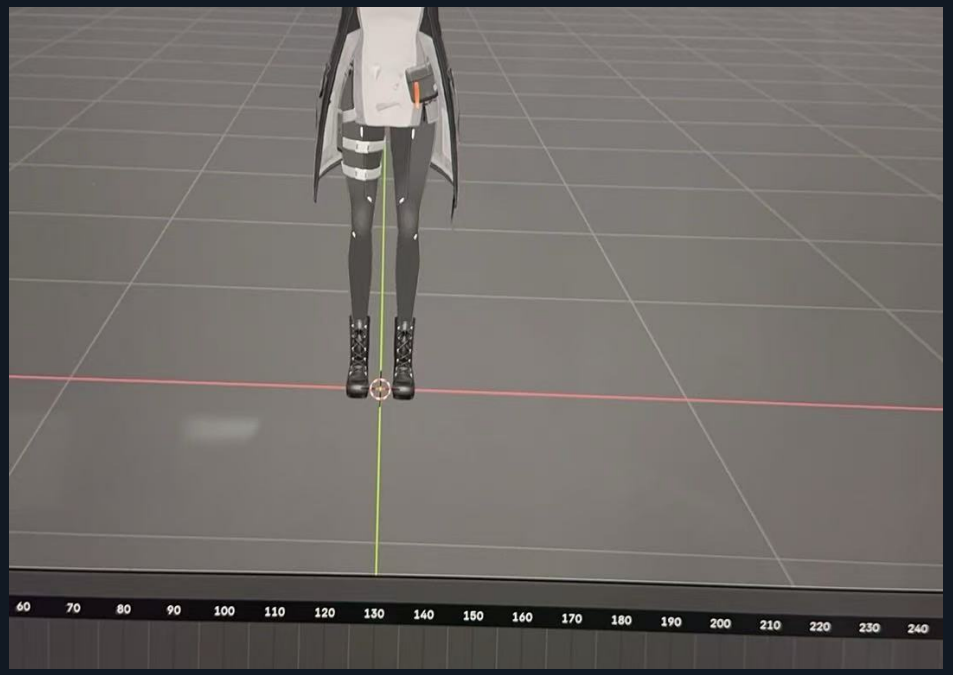

Visual composition and lighting

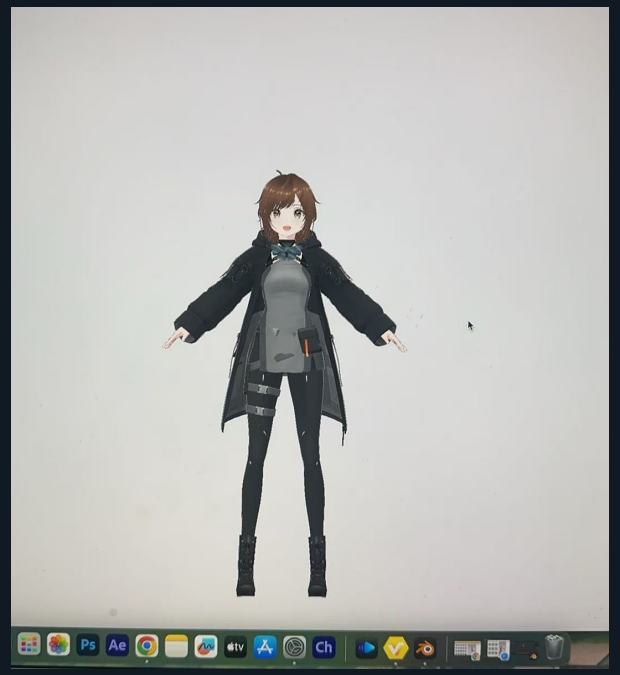

Original source statement in earlier portfolio mentions open-source models/maps and UE5 Lumen / Nanite.

Differentiate sourced 3D assets from your own shot and lighting decisions.

05 3D & CHARACTER PIPELINE

Character asset inspection and 2D/3D visual practice

BLENDER

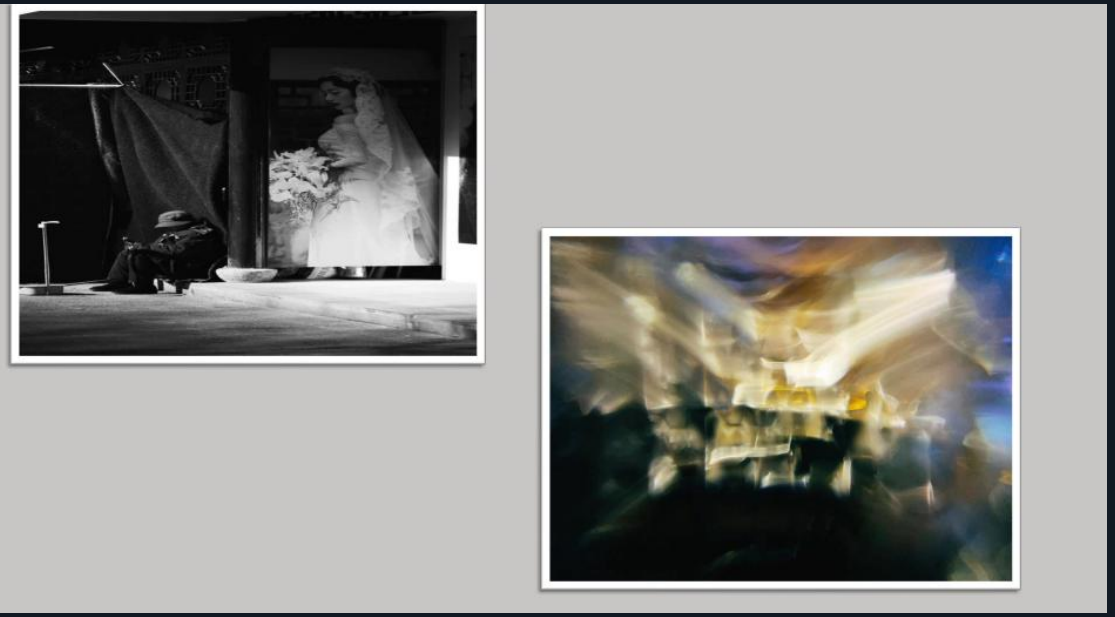

VRoid Studio

Character shown from two angles.

Asset authorship, modifications, rigging and export role to be verified.

NEXT STEPS

Publish-ready version pending verified credits and links

01 Add name, professional email and preferred job-market location.

02 Confirm each video project title, year, role and collaborators.

03 Identify original work versus studies using external material.

04 Replace general evidence with real editing before/after examples.

05 Provide final clips or public links and permission to show.

06 Export a credited showreel and add a scannable link.
